US Army Corps of Engineers

DHS GMO Geospatial Common Operating Data Study

FEMA

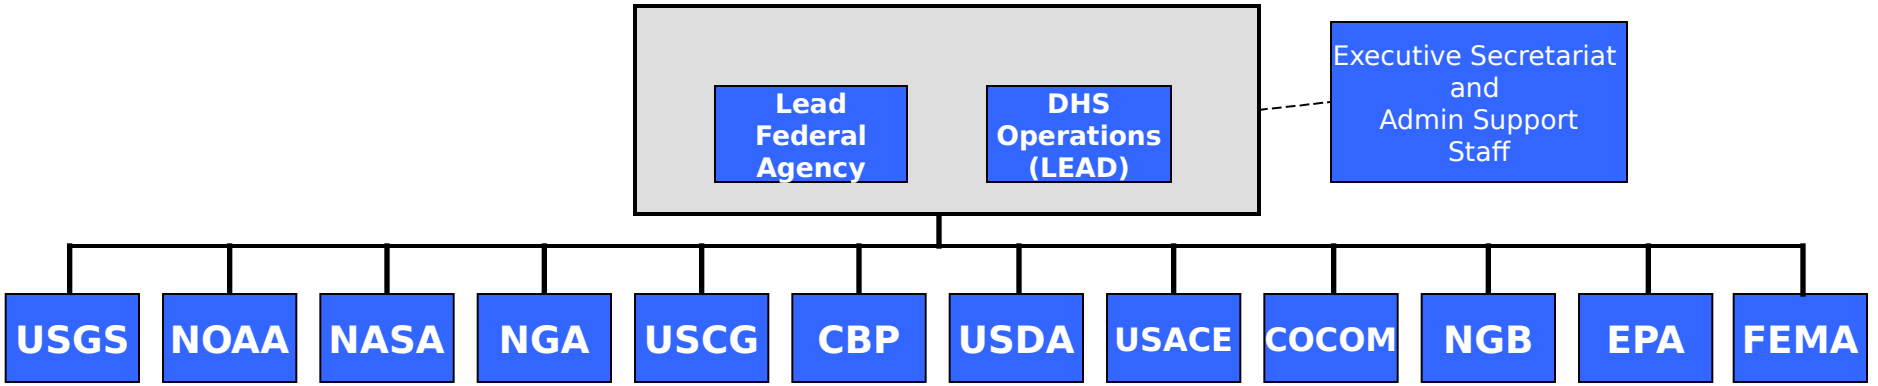
Purpose: Review, identify and validate Common Operating Data used to support the National Response Plan. Provide basis for a procurement strategy for how geospatial COD data is managed, procured and licensed.

Status: All ESF leads and field representatives have been interviewed and final report will be delivered to DHS on 30 April 2007.

US Army Corps of Engineers

Interagency RS Coordination Cell (IRSCC)

FEMA



- **Representatives from each participating organization**
  - make recommendations on capability, availability, strategies
- **Central coordinating authority and clearinghouse for remote sensing requirements**
  - De-conflicts remote sensing requirements
  - Methodology to answer requirements
  - Process to assign requirements
  - Ensure dissemination to users/requestors
- **PFO determines Priorities**

US Army Corps of Engineers

Update on USACE GIS Support

FEMA

- Restructured GIS Cadre Team
  - 4 teams with 7 members on each team
- Updated Cadre SOP
- Develop Coordination Mechanism between GIS Cadre and District Enterprise GIS
- Encourage District GIS People to Connect with State/Local Governments prior to an Event
